Dad I will miss you so very much. I missed the first two decades with you. We made up for it the last three decades eight months and six days. I am so very happy you kept in touch with my great grand parents on my mom's side. I am so blessed to know I have two more sisters, a brother and a mom uncles aunts and cousins. You will always be in my heart forever and I will cherish you for ever.. There is no denying I am your daughter, I look just like you, but I have my great grandma Cash's pinky fingers. When I look in the mirror I see you. I have your eyes. I have your knees. I don not know what to do without you. I know you will be our families guardian Angel and you will always keep us safe. Until we meet again I want you to spread your wings and fly. Love your oldest daughter Karen Wood Cash Wastafarro

I will forever be grateful for the temple ready names Brother Wood gave me month after month! I loved taking these names to do their eternal work and often new that that someone had been waiting for their work to be done and felt their love and gratitude! I love Brother Wood forever and his wonderful wife, Linda too! LuAnn Preston
