To my beloved grandmother...I have so many fond memories of you.....i remember watching you bake homemade bread, when you gave me my very first slumber party and how you drove to pick up all of my friends. I remember you putting me in ballet and tap dance.....you sent Christmas and birthday cards every year! You made it possible so that my children were not deprived growing up.....i remember how you worked tirelessly to take care of your own mother.....but most of all i remember the very last time i saw you and the beautiful smile that was on your face and all though you are no longer with me you will forever be in my heart!

I have such beautiful memories of you, you were just like a mother to me. When we first met we connected right away and I knew it was God that sent you into my life. You were a Hugh blessing in my life, we laugh and had wonderful conversations every time I came to visit you. I loved cooking for you and making those scrumptious pound cakes that you like. You are forever in my heart and thoughts . I love you always just like JESUS. Love your daughter, Carolyn

I miss seeing you at the table and sitting in your lift chair. I miss making smoothies for you and helping you whenever you needed it; but I'm glad that you are no longer suffering. Oh...one more thing, thanks for the glasses you knew I was looking for them!!!
