For all the times Mr. Doster patiently fixed the transmission on my Montesa motorcycle, cigarette dangling from his lip and a Coors sitting nearby. He had the best stories from his own riding and racing days. I am grateful for his advice and the many miles he drove me and Ron to trials events in California and Nevada. My condolences to Ron and Mary Lou and your families. He was truly a character and deeply and dearly loved. Take care.DB

Larry George posted:

Paul was an amazing person. At our yacht club he engineered, designed and installed the automated feeder for the White Seabass pens over 30 years ago that we still use today. He was also instrumental in creating the Angler's file station. For many years, Paul prepared and cooked for the swordfish dinners, feeding over 200 guests annually. When Shirley became ill, he designed and installed a trolley system to help her get into and out of the tub/shower. When Paul humbly asked me to take over the Swordfish dinner, I was honored to do so. Paul will surely be missed by all. Larry George
